PROJECT COST BREAKDOWN (STEP 1)

Project Information

Project Name: ENDA UOR 3075
Customer Name: ENDA UK
Plant Capacity: 3000 LPH
Selected Currency: GBP

Base Plant Cost

Base Plant Cost (USD): 4,450,000
Base Plant Cost (GBP): 3,515,500

Additional Project Costs

Cost Component	Amount (GBP)
Freight & Insurance	35,000
Import Duty & VAT	176,000
Plot Cost	352,000
Civil Cost	281,000
Refinery Shed	352,000
Utility Shed	281,000
Office Building	176,000
Mechanical & Electrical	352,000
Fire Suppression System	176,000
Insulation Cost	70,000
Legal Fees	35,000

Pre Formation Expenses	18,000
Commissioning & Travel	105,000
Contingency	70,000
Total Additional Costs	2,479,000

Step 1 Cost Summary

Base Plant Cost: GBP 3,515,500

Additional Costs: GBP 2,479,000

Total Step 1 Investment: GBP 5,994,500

TANK FARM & UTILITIES COST BREAKDOWN

Tank Farm Details

Tank Description	% Capacity	Storage Days	Required (KL)	Tank Size (KL)	Quantity	Cost/Tank (GBP)	Total Cost (GBP)
Used oil storage tanks	150	7	800	400	0		
Light Base Oil	80	5	300	300	0		
Heavy Base Oil	60	5	250	300	0		
Light Base Oil Intermediate tank	40	3	100	100	0		
Heavy Base Oil Intermediate tank	30	3	100	100	0		
Finish Light Base Oil	70	7	400	400	0		
Finish Heavy Base Oil	50	7	300	300	0		
Waste Water tank	25	2	50	50	-1		
Naphtha / Gas Oil storage tank	35	4	150	200	0		
Residue storage tank	20	3	50	50	0		
Process water tank	30	2	50	50	0		
Fire water storage tank	20	30	500	500	0		
Fuel oil Tank	15	5	100	100	0		

Tank Farm & Utilities Summary

Total Tank Farm Cost: GBP 0
Total Utilities Cost: GBP 0
Combined Tank Farm & Utilities: GBP 0

ADDITIONAL EQUIPMENT BREAKDOWN (STEP 3)

Additional Equipment Details

Equipment Component	Cost (GBP)
Pipes, Valves & Flanges	225,000
Tank Level Transmitters	35,000
Additional Pumps & Filters	53,000
Quality Control Equipment	35,000
Labor Erection & Commissioning	105,000
Electrical Cables & Accessories	70,000
Total Additional Equipment	523,000

Step 3 Equipment Summary

Total Additional Equipment Cost: GBP 523,000

OPERATING COSTS BREAKDOWN (STEP 4)

Cost Component	Amount
Feedstock Cost per Liter	GBP 0.2
Power Cost (Monthly)	GBP 2,520
Fuel Cost (Monthly)	GBP 54,000
Chemical Cost (Monthly)	GBP 7,500
Labor Cost (Monthly)	GBP 20,000
Maintenance Cost (Monthly)	GBP 15,000
Media Cost (Monthly)	GBP 5,550
Transportation Cost (Monthly)	GBP 1,200
Vehicle Maintenance Cost (Monthly)	GBP 15,000
Miscellaneous Cost (Monthly)	GBP 7,500

PRODUCT YIELDS & PRICING (STEP 5)

Product	Yield (%)	Price (GBP)
Naphtha / Gas Oil	7.0%	296
Light Base Oil	50.0%	444
Heavy Base Oil	22.0%	466
Residue	15.0%	222
Waste Water	5.0%	-40
Process Loss	1.0%	0
Total Yield	100.0%	

PROFIT & LOSS STATEMENT (ANNUAL)

Description	Amount (GBP)
REVENUE	9.8M
Naphtha / Gas Oil	537,062
Light Base Oil	5.8M
Heavy Base Oil	2.7M
Residue	863,136
Waste Water	-51,840

COST OF GOODS SOLD	5.2M
Feedstock Cost	5.2M

GROSS PROFIT	4.6M
---------------------	-------------

OPERATING EXPENSES	1.5M
Power Cost	30,240
Fuel Cost	648,000
Chemical Cost	90,000
Labor Cost	240,000
Maintenance Cost	180,000
Media Cost	66,600
Transportation Cost	14,400
Vehicle Maintenance Cost	180,000
Miscellaneous Cost	90,000

EBITDA	3.0M
---------------	-------------

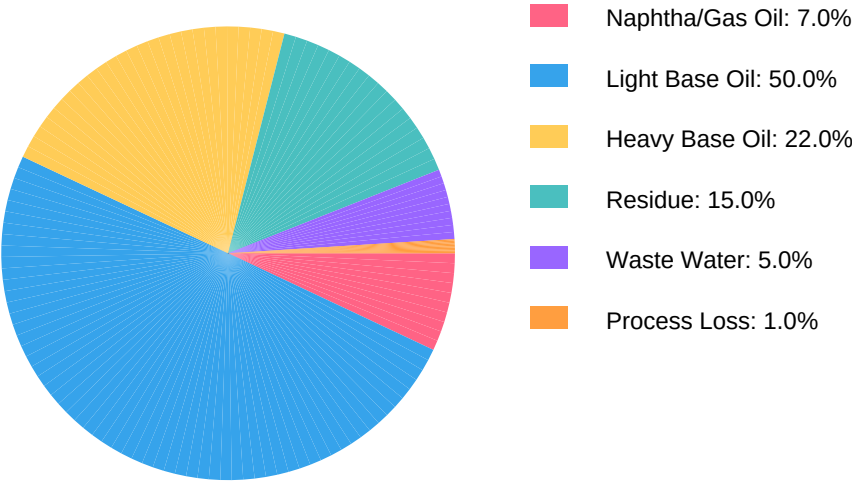

FINANCING COSTS	268,077
Interest on Debt	246,477
Working Capital Interest	21,600

KEY FINANCIAL METRICS

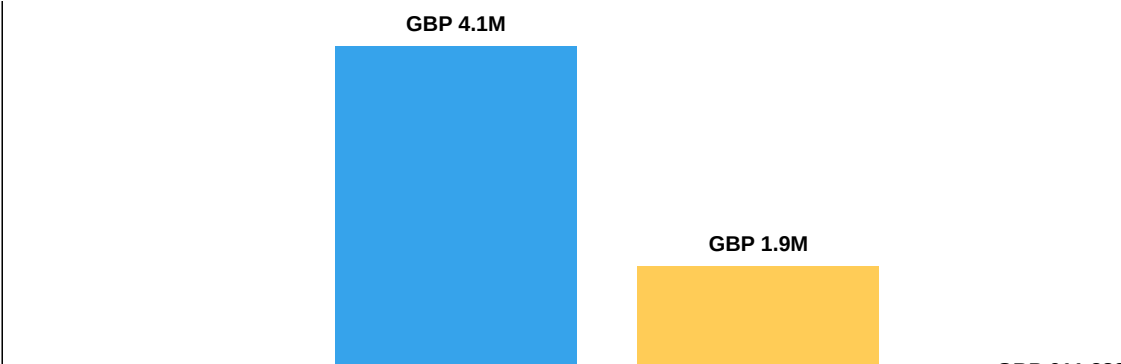

Financial Metric	Value
Gross Margin	46.88%
Net Margin	22.71%
Annual ROI	16.85%
Payback Period	71.2 months
IRR	5.78%
NPV	GBP 1,609,588
