## PROJECT COST BREAKDOWN (STEP 1)

### Project Information

Project Name: ENDA UK UOR 3000 Exp 7500  
Customer Name: ENDA UK UOR 3000 Exp 7500  
Plant Capacity: 3000 LPH  
Selected Currency: GBP

### Base Plant Cost

Base Plant Cost (USD): 4,450,000  
Base Plant Cost (GBP): 3,515,500

### Additional Project Costs

| Cost Component          | Amount (GBP) |
|-------------------------|--------------|
| Freight & Insurance     | 50,000       |
| Import Duty & VAT       | 630,300      |
| Civil Cost              | 385,000      |
| Refinery Shed           | 352,000      |
| Utility Shed            | 173,000      |
| Mechanical & Electrical | 176,000      |
| Fire Suppression System | 250,000      |
| Insulation Cost         | 150,000      |
| Legal Fees              | 30,000       |
| Pre Formation Expenses  | 250,000      |
| Commissioning & Travel  | 120,000      |

|                        |           |
|------------------------|-----------|
| Total Additional Costs | 2,566,300 |
|------------------------|-----------|

Step 1 Cost Summary

Base Plant Cost: GBP 3,515,500  
Additional Costs: GBP 2,566,300  
Total Step 1 Investment: GBP 6,081,800

TANK FARM & UTILITIES COST BREAKDOWN

Tank Farm Details

| Tank Description | % Capacity | Storage Days | Required (KL) | Tank Size (KL) | Quantity | Cost/Tank (GBP) | Total Cost (GBP) |
|------------------|------------|--------------|---------------|----------------|----------|-----------------|------------------|
|------------------|------------|--------------|---------------|----------------|----------|-----------------|------------------|

Utilities & Equipment Details

| Equipment            | Specifications  | Quantity | Unit Cost (GBP) | Total Cost (GBP) |
|----------------------|-----------------|----------|-----------------|------------------|
| Compressor           | 60 HP           | 1        | 23,700          | 23,700           |
| Heater               | 1800000 Kcal/hr | 2        | 71,100          | 142,200          |
| Total Connected Load | 1050 KW         | 1        | 0               | 0                |

Tank Farm & Utilities Summary

Total Tank Farm Cost: GBP 0  
Total Utilities Cost: GBP 165,900  
Combined Tank Farm & Utilities: GBP 165,900

## ADDITIONAL EQUIPMENT BREAKDOWN (STEP 3)

### Additional Equipment Details

| Equipment Component               | Cost (GBP)     |
|-----------------------------------|----------------|
| Pipes, Valves & Flanges           | 250,000        |
| Tank Level Transmitters           | 35,000         |
| Additional Pumps & Filters        | 53,000         |
| Labor Erection & Commissioning    | 105,000        |
| Electrical Cables & Accessories   | 55,000         |
| <b>Total Additional Equipment</b> | <b>498,000</b> |

### Step 3 Equipment Summary

Total Additional Equipment Cost: GBP 498,000

## OPERATING COSTS BREAKDOWN (STEP 4)

| Cost Component                     | Amount     |
|------------------------------------|------------|
| Feedstock Cost per Liter           | GBP 0      |
| Power Cost (Monthly)               | GBP 15,200 |
| Fuel Cost (Monthly)                | GBP 54,000 |
| Chemical Cost (Monthly)            | GBP 9,000  |
| Labor Cost (Monthly)               | GBP 44,400 |
| Maintenance Cost (Monthly)         | GBP 8,789  |
| Media Cost (Monthly)               | GBP 3,125  |
| Transportation Cost (Monthly)      | GBP 1,200  |
| Vehicle Maintenance Cost (Monthly) | GBP 1,200  |
| Miscellaneous Cost (Monthly)       | GBP 7,500  |

PRODUCT YIELDS & PRICING (STEP 5)

| Product           | Yield (%) | Price (GBP) |
|-------------------|-----------|-------------|
| Naphtha / Gas Oil | 7.0%      | 296         |
| Light Base Oil    | 50.0%     | 444         |
| Heavy Base Oil    | 22.0%     | 466         |
| Residue           | 15.0%     | 222         |
| Waste Water       | 5.0%      | -40         |
| Process Loss      | 1.0%      | 0           |
| Total Yield       | 100.0%    |             |

PROFIT & LOSS STATEMENT (ANNUAL)

PROFIT & LOSS STATEMENT (ANNUAL)

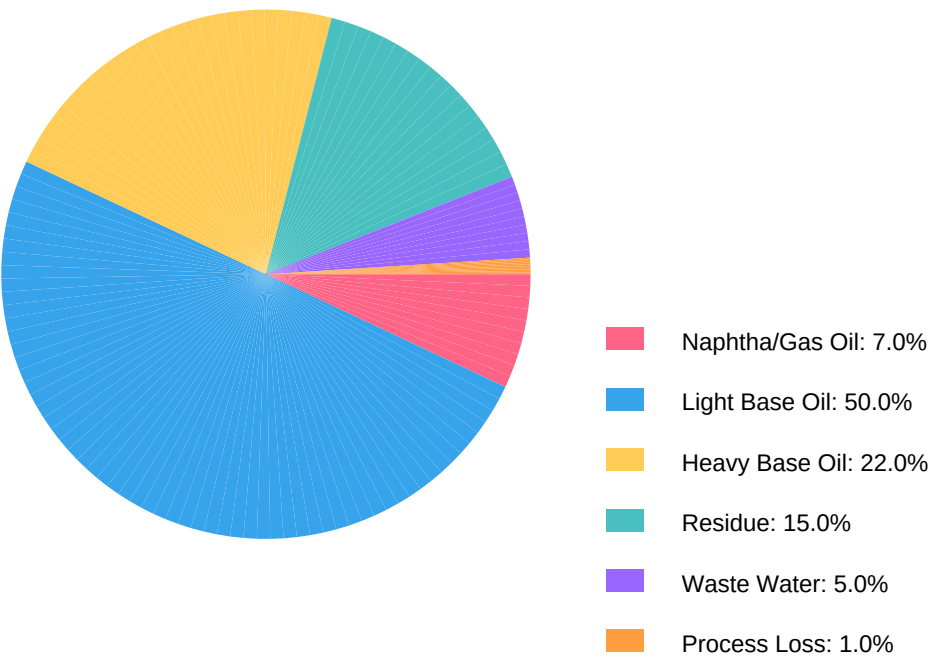

| Description              | Amount (GBP) |
|--------------------------|--------------|
| REVENUE                  | 7.6M         |
| Naphtha / Gas Oil        | 358,042      |
| Light Base Oil           | 4.1M         |
| Heavy Base Oil           | 1.9M         |
| Residue                  | 1.3M         |
| Waste Water              | -43,200      |
| COST OF GOODS SOLD       | 0            |
| Feedstock Cost           | 0            |
| GROSS PROFIT             | 7.6M         |
| OPERATING EXPENSES       | 1.7M         |
| Power Cost               | 182,400      |
| Fuel Cost                | 648,000      |
| Chemical Cost            | 108,000      |
| Labor Cost               | 532,800      |
| Maintenance Cost         | 105,468      |
| Media Cost               | 37,500       |
| Transportation Cost      | 14,400       |
| Vehicle Maintenance Cost | 14,400       |
| Miscellaneous Cost       | 90,000       |
| EBITDA                   | 5.9M         |
| FINANCING COSTS          | 176,055      |
| Interest on Debt         | 176,055      |
| Working Capital Interest | 0            |
| DEPRECIATION             | 551,650      |
| Straight-line (10 years) | 551,650      |
| NET PROFIT               | 5.2M         |

# KEY FINANCIAL METRICS

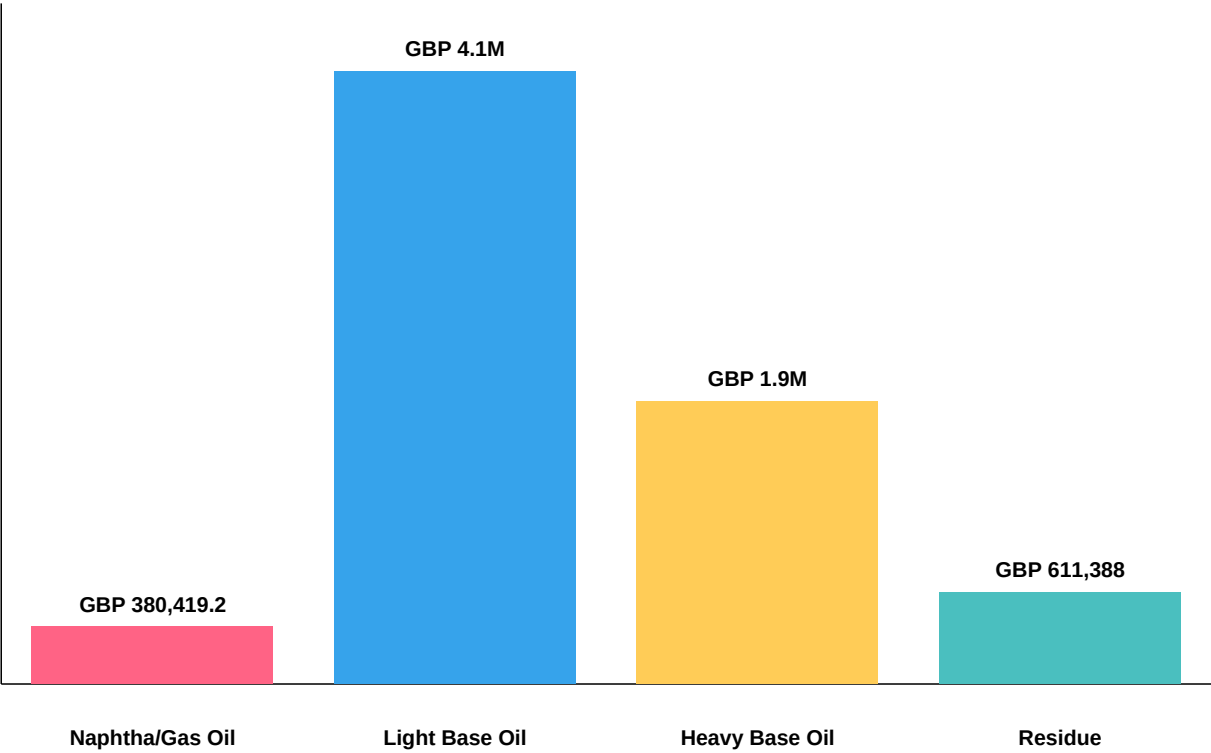

| Financial Metric | Value          |
|------------------|----------------|
| Gross Margin     | 100.00%        |
| Net Margin       | 67.67%         |
| Annual ROI       | 90.78%         |
| Payback Period   | 11.6 months    |
| IRR              | 6.69%          |
| NPV              | GBP 15,560,201 |

# GRAPHICAL SUMMARY
